

Hi my name is Katie Brierly and I am writing on behalf of Erick Shute as a witness to his character and supporter of his freedom and getting pardoned by Jim Justice. I have known him for 5 years and he was always so nice. We met when he was doing consulting for small business trying to get funding from investors to grow their company's. I worked in marketing at the time and still do. I hope you can find it in your heart to help him get out of prison. He is such a great guy, kind, sweet and all around a good person. We have a campaign we are working on to get the message out to as many people as possible to get as many signatures as possible for Erick Shute and I think this would be a great opportunity for you to build your campaign on it as a supporter of the Stand Your Ground laws and right to self defense and the second amendment. I have looked into Erick Shute's case and I think it is really messed up what has happened to him. He shouldn't be in prison. Not for one day. He shouldn't have even been arrested. Those people he defended himself from were horrible from what I have learned about them. As I said I work in marketing and if you are willing to help Erick I would like to work with you to help him however I can. I think Justice For Erick Shute is a great cause with a great message exposing the problems in our judicial system and it needs more attention. Please join us in our cause.
